

The least expensive table we offer is the Martin Kilpatrick Hobby table at \$400. We do offer delivery on this table, but do NOT offer set up.

Our entry Butterfly Brand table is the Home Rollaway. This table is great for those looking for a basic wood top table and can easily be folded up for storage, or to play alone.

For those looking for a more durable option, we offer the Butterfly Playback Rollaway. Also a wood top table, this option comes with extra bracing around the legs to provide greater table durability and support. Additionally it has edgebanding to protect the table's edges from wear.

Outdoor Enthusiasts will love our Butterfly Outdoor Playback table. Made with a synthetic laminate table top, instead of water warping wood, this table is durable enough for outdoor play. Similar to the Playback Rollaway, this table has additional bracing for support and edging for table longevity.

\*We do suggest that if table is left outside that it should be covered and that it should still not be left out in raw elements.

All of our Butterfly tables are easily folded up for storage or for personal play and come with table netting. Covers, paddles and other accessories are available for purchase separately. Sports Haven also offers set up and delivery.
